

January 20, 2012

This is the day before our first work weekend for Jail Break 2012. TX Alline and I went to town to get the lumber etc. for the new stage that Saddle Rash and Gunslinger will be building at the old Buckboard location. This will be a really nice stage and it is needed at that upper end of the range. It will be a building with shade. I'm sure it cannot be completed in one weekend, so if anyone wants to help at a later date, contact Gunslinger or Saddle Rash. They are in charge of the work on it.

We will also have a work weekend on February 4, and 5, and again on March 3 and 4. Workers will be fed and given a place to sleep or connect their camper to Electricity and water for the weekend. Bring tools and chain saws if you have them. If anyone wants to cut up some firewood or good BBQ wood, there will be plenty to go around if you cut it. Pineywoods Jim will be in charge of setting up a middle of the week work party to help him on some needed range improvements. If you are interested in helping, let him know. This will be an ideal time to help for those who want to shoot at another club on our work weekends. This is your club and it will take your help and input for it to continue.

TX Alline and I really would like to find someone to help take over the club, since it is beginning to be just too much for us. Mainly on the paper work and computer end of things. For the club to continue, this has got to happen.

Last month was the last time for lunch at the range, unless we can find someone to take over the kitchen. So far, no one has offered to do that, so be sure to bring a lunch if you want to eat after shooting while waiting on the scores.
