

ACTION ITEMS:

**Action Items require discussion and a vote for an official rule change/edit/clarification.*

1) **Should we institute the following standard for all style/costume categories when breaking them down by age?**

The regulations for the base category will be applied first; THEN the age limits.

Reasons to do so:

"**any legal revolver**" is the criteria for the basic AGE-based categories ...which **doesn't apply** to FRONTIERSMAN (requires **percussion** ignition); CLASSIC (which has a **caliber** restriction), and GUNFIGHTER (which requires **FIXED sights**)...as does DUELIST

Other categories have restrictions regarding rifle model/caliber and additional equipment regulations.

...**Senior Duelist** currently being the only **anomaly** specifically listed as such (i.e. a "subcategory" of SENIOR instead of Duelist)

Example:

(Senior GF would be a Gunfighter 60+ years old, subject to Gunfighter category regulations)

2) **Should we change Senior Duelist to comply with that standard?**

Shooting STYLE = #1 determinant

Shooter's AGE = #2 consideration

3) **Should we officially acknowledge the shooting category "Frontier Cartridge gunfighter" as a SASS sanctioned/recognized category?**

The category would follow the firearm and ammo guidelines of the current "Frontier Cartridge" category and follow the shooting style and holster requirements of the current "Gunfighter" Category.

The main reason to add FCGF to the list of "officially recognized" categories is that it brings the BP categories up to par with the smokeless
