

President's Letter

Dec. 2016

There is not much to report about the weather except to say that it is too un-predictable to be predicted. One day it is nice and Sunny and a few hours later it is in the 30s and threatening to snow. Just today, we were under a Tornado watch in the morning with a cold front coming thru, and then by noon it was in the 70s and full sunshine. We can only hope for good weather this month. If we don't, there is plenty of wood at the range.

There will be something to snack on after the match this month. I don't know exactly what yet, but I am sure something will show up in the pot. Probably something nice and warm.

Jail Break is fast approaching and the range is starting to show the improvements that are being made for the match. If you have not enrolled yet, you better hurry to get a spot on that special Posse that you want to be on. Also, if you are interested in helping put on the match, see Denton Dancer to find out what kind of help is needed.

This month I would like to take some pictures of different groups to be used to make a brochure or calendar or some such item. Groups of a half dozen or so would be about right. This month, I would like to take pictures of a group of women shooters, and a group of Wild Bunch shooters. Actually you don't have to be a shooter if you look and act the part. If you would like to participate, wear period clothing and carry period correct guns. If some Wild Bunch shooters have some more exotic firearms such as those used in the movie, that would be great.

I hope you all will have some Christmas guns that you plan on trying out this month.

To some of you hunters out there, remember, you are not lost if you can still see the Truck.

Till next time'

Justa Hand
