

President's Letter

January 2017

The weather here at the range is really nice. Cool mornings and warm afternoons. I just hope it will be this nice for Jail Break. It should be.

Everything is moving along with regard to preparations for this years Jail Break. Denton and Calico were here for the two weeks preceding the match and they have everything in tip top shape. Sure wish we had a few more people with their dedication and drive. Remember, they do all this just so you can have fun enjoying the game you play. Give them a hand.

Gunslinger has some interesting stages for you to shoot, and they should be fun. Lonesome Lefty has the Long Range set up and ready to shoot. He will run that part of the match, and has done very well conducting it in the past. I am not sure who Gunslinger has lined up to run the other side matches, since he is handling that part of the match too.

It is hard not to be political these days, so here is my take on things. These protesters and Ultra Liberal Democrats need to get over it. Their candidate DID NOT WIN as a result of their not being in touch with NORMAL every day U.S. citizens. They feel that everyone who does not think like them are out to destroy their version of America. Hay, they might just be right for once. The way the Democrats in Congress are acting is disgusting and immoral, and I just hope voters remember their antics when the next election comes along. And have you seen the way college students have been taught to protest things that they don't like. They think that Speech is free only if you agree with them. O.K. snowflakes, it is time to melt away.

A lot of the BIG cowboy matches are coming up starting with Winter Range and continuing all over the country thru the spring and summer. What a way to spend a vacation. We hope some of you get to, and you will keep us informed as to how you do. It is really good to see how different clubs do things. Just go and enjoy yourself and don't be a complainer and whiner. Just think of clubs that do things differently than what you are used to and/or don't agree with as a learning experience. No need to bad mouth any club just because they are doing things their way.

Watch your back trail, their may be someone coming up behind you to overtake you.

Justa Hand
